STUDENT INDUCTION PROGRAMME

Exploring Institutional Learning Resources

Presented by:

Kaji Minhajul Hoque
Assistant Professor

INTRODUCTION

Learning resources in a teacher training institute are essential tools, materials, and facilities provided to support B.Ed. students in developing knowledge, teaching skills, and professional competencies. These include access to specialized books, journals, digital platforms, and practical facilities tailored to the needs of future educators, helping them to learn effectively and become well-equipped teachers for tomorrow's classrooms.

Purpose:

- To introduce the valuable learning resources available to support your academic and professional success.
- Utilizing these resources effectively will empower your learning journey.

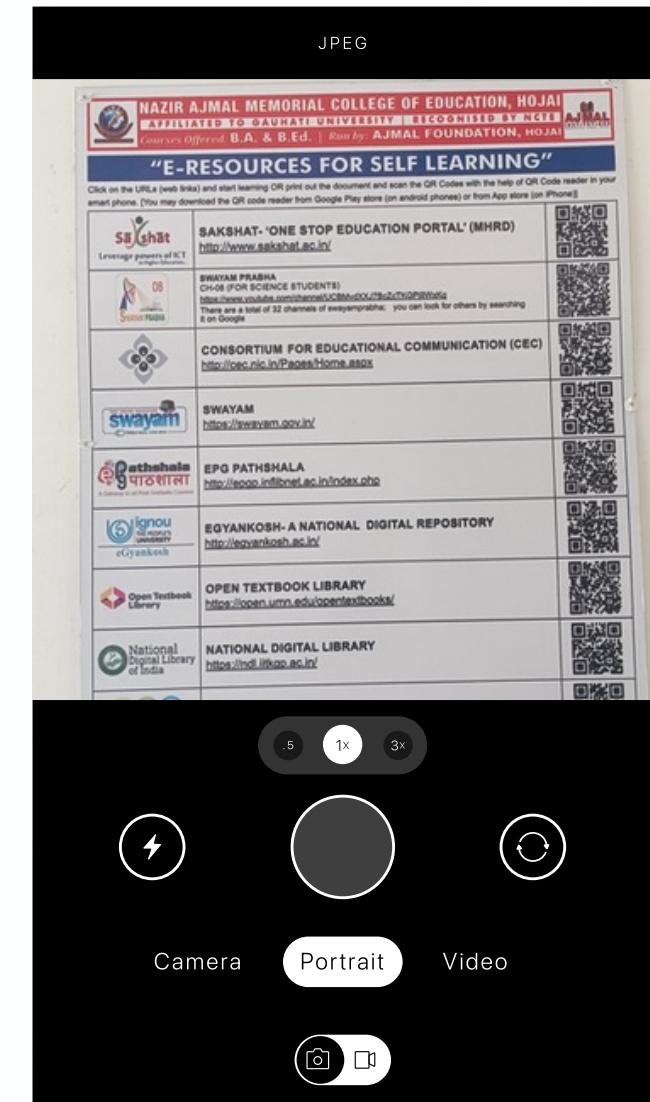

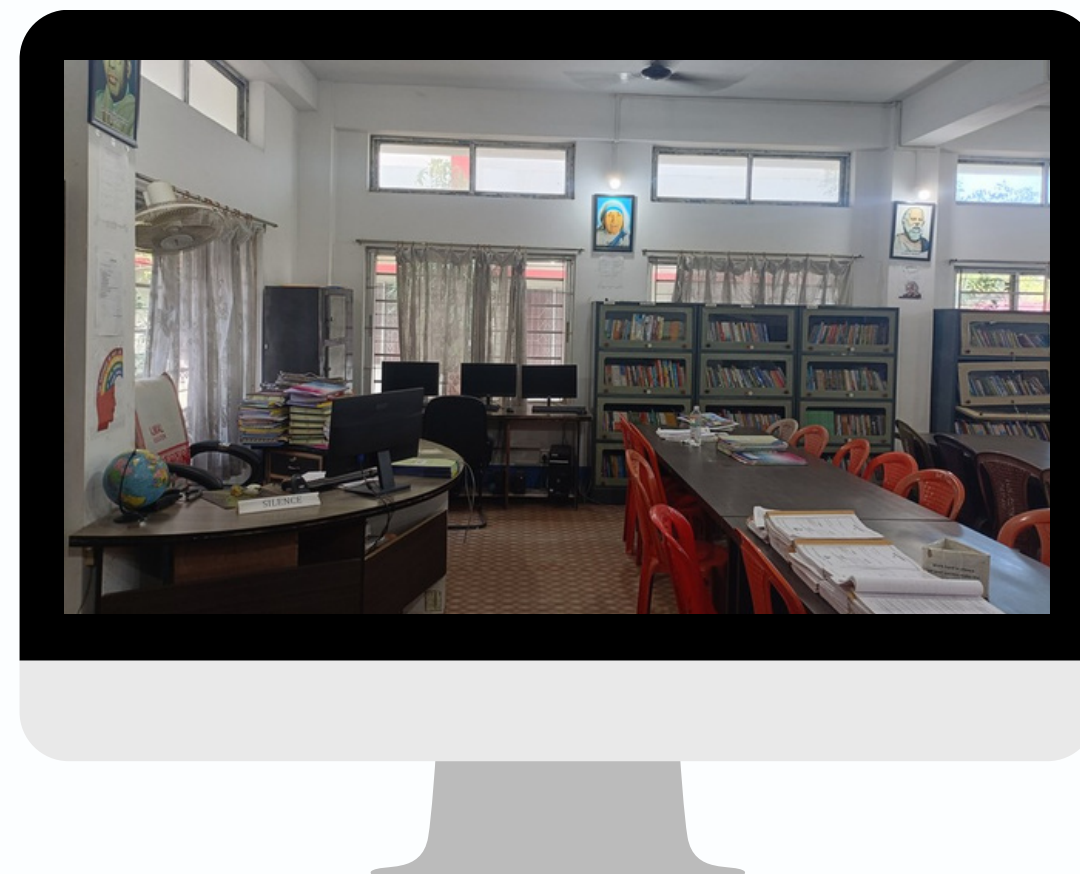

Physical Library Resources

- Extensive collection of textbooks, reference books, and journals focused on education.
- Special sections for research studies and teaching materials.

Digital Library Access

- E-books, e-journals, OER and educational databases accessible on-campus and remotely

ICT Facilities & Support Services

- Computer labs with internet access for study and research.
- Academic support services: tutoring, counseling, and writing assistance
- Workshops and seminars on research skills and academic writing.
